

# The Office of Executive Education at College of Business

## Our mission

To serve the community and attend to the professional development needs of individuals and organizations in order to build leadership qualities in the workplace.

We can assist you if you are interested in completing a professional development short course, test preparation for a professional certificate, or partner with Alfaisal University to design and deliver state-of-the-art learning solutions that are customized for your corporate training needs and help you realize your strategic business objectives or create your competitive advantage.

The office of Executive Education has partnered with world class international organizations to provide the Saudi business community and individuals with the best Executive Education.

## Our Advantage

- **Custom Program Development:** The program topics, trainers and structure are selected specifically to enrich the learning experience and maximize the effectiveness of your organizations.
- **Real-World Professional Business Education:** Applied learning approaches and case studies that are relevant to the work place.
- **World-Class Expertise:** Our experts and trainers come from a variety of diverse industrial and academic backgrounds, each one is on the cutting edge of current knowledge and skills in her/his field. Their professional experience and research expertise enable them to equip trainees with practical business knowledge.
- **Collaborative Approach with International Professional Bodies:** We collaborate with the best providers of executive education and professional qualifications to add value to our programs.
- **Committed Support Services:** We highly value our relationship with our clients. We want our clients to be confident that we will always deliver exceptional service.

## **Customized Learning Programs**

The office of Executive Education can provide you with a solution that is based on consultative approach. We help learn more about your organization's development and performance needs and accordingly analyze them to be able to deliver the best solutions that fit your organization's mission and objectives. We can:

- Design and deliver structured programs that create a competitive advantage for your business that uniquely fits your business model
- Engage our faculty and experts with your corporate's executives to create collaborative and measurable objectives
- Perform benchmarking and market analyses
- Work with you to evaluate your current competency framework and make the necessary recommendation for solutions that fit your needs
- Using different sources of training materials to enhance the training experience
- Provide a responsible, objective and comprehensive view of your current competitive position
- Continuously evaluate the learning effectiveness for your organization
